

AirU Sensors

Mesowest sensors

~202 sensors have PM2.5 measurements,
but we think many of these are duplicates of PurpleAir sensors

Lots of query settings available! Documentation:
<https://synopticlabs.org/api/mesonet/>

Other sensors may have other measurements; this will get a list of all
Mesowest sensors and what measurements they have available:
<https://api.mesowest.net/v2/stations/metadata?&token=demotoken&sensorvars=1>

null measurements seem to be pretty common
with these sensors; only store records that
have non-null PM2.5 measurements
